Commissioner for Patents

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 C.R.F. ' 1.821(a)(1) and (a)(2). A computer readable form (CRF) of the sequence listing was submitted. However, the CRF appears not to match the Sequence Listing, submitted March 4, 2002. It is noted that the Sequence Listing for SEQ ID NO:1 appears to be the same as in the parent application, 08/846,790, so it is concluded that the CRF is in error. Applicant is required to provide a new CRF and a statement verifying that the Sequence listing and the CRF are the same and that no new matter has been added to the specification.

Any questions regarding compliance with the sequence rules requirements specifically should be directed to Mark Spencer at 571-272-2533.

Applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, from the mailing date of this notice, whichever is longer, within which to supply the correction in order to avoid abandonment. EXTENSIONS OF THIS TIME LIMIT MAY BE GRANTED UNDER 37 CFR 1.136(a).

An y inquiry concerning this communication or earlier communications from the examiner should be directed to Saraswathy Seetharam whose telephone number is 571-272-2113. The examiner can normally be reached on 8-5. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeffrey Siew can be reached on 571-272-0787. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
